by Natalie Williams

Daydreams in Mermaid Grass began in a dream. What happens when we sleep, before we fall into those deepest, unknown places? Why do we have no recollection of what has taken place but awake with a heightened sense of something undefinable? This uniquely transcendent collection of poetry offers a peek into a world where the wildest dreams and nightmares culminate in an all-consuming whirlwind ride. A dream state like that of the title, where Time's journey stops and unimagined things reach out from another universe as you slip softly into the unknown.

In her verse, Natalie Williams summons up the world of Bracken, a mesmerising realm populated by fantastical creatures. Serpent dragons journeying on quests that reflect all wrongdoing, princesses clothed in darkness and the enigmatic 'Speaker' are just some of the treasures that await. Take her hand and let her magical dream-verse lead you into the world of *Daydreams in Mermaid Grass*.
